## The Association for Sandplay Therapy

*. . . loving kindness, clarity & humility in the practice of Sandplay*

Summer is Here, and the pandemic begins to abate in many areas. Sandplay therapists from around the world are beginning to see clients once again. We could not be happier or more relieved. AST continues to support intelligent cautions regarding the virus, as the variants pose unknown risks. Do not take chances. Be very careful.

Many of us have suffered losses during this difficult time. We mourn and grieve together. At the same time, those of us who continue to live and thrive must carry on. We at AST are so proud of our many Sandplay clinicians around the world who can once again use Sandplay, this wonderful portal to the soul, with adults and children. Every day I see miracles happening in Sandplay. Have faith and keep up the wonderful work. *Barbara Turner, PhD*
